

Vo Ngoc Son

Front-End

Hello, my name is Vo Ngoc Son. I am currently studying at the University of Sciences - VietNam National University, Ho Chi Minh city, majoring in Information Technology. I'm pursuing the field of web interface. In the future, I want to find a good environment where I can develop and improve my skills. In addition, I also want to create more relationships to support my work in the future.

I have some big projects coming up soon. All information about them will be published on this website. Follow them. If you want to cooperate with me, please contact me through [section](#).

Projects

OMRP • One million reward points

This website helps customers use points accumulated at the store to make purchases here. These stores sign a contract with the company that owns the OMRP website, then specify the products customers can exchange and pay the company a fee at the end of the month. This not only helps customers avoid wasting accumulated points but also stimulates them to make purchases.
